Light in the battle against
viruses and bacteria

DISINFECTION WITH UV-C LIGHT

UV disinfection technology has been known for about a hundred years and used mainly in medicine. However, its scope of application is much wider. UVC lamps emitting ultraviolet light are one of the most effective devices capable of removing viruses, bacteria, fungi from the surface or destroying the DNA or RNA of any exposed microorganisms*.

*Basic safety precautions should be observed when using UVC lamps for disinfection, i.e. you should not stay within the range of the light beam.

STERILON UV-C

A new family of UV-C STERILON portable lamps

ACTIVITY

- sterilisation with UV-C radiation
- disinfection stream management
- neutralises all viruses, bacteria and other microorganisms within the lamp's operating range
- desired effects after just a few minutes
- does not produce harmful ozone

NEUTRALIZE
99,9%

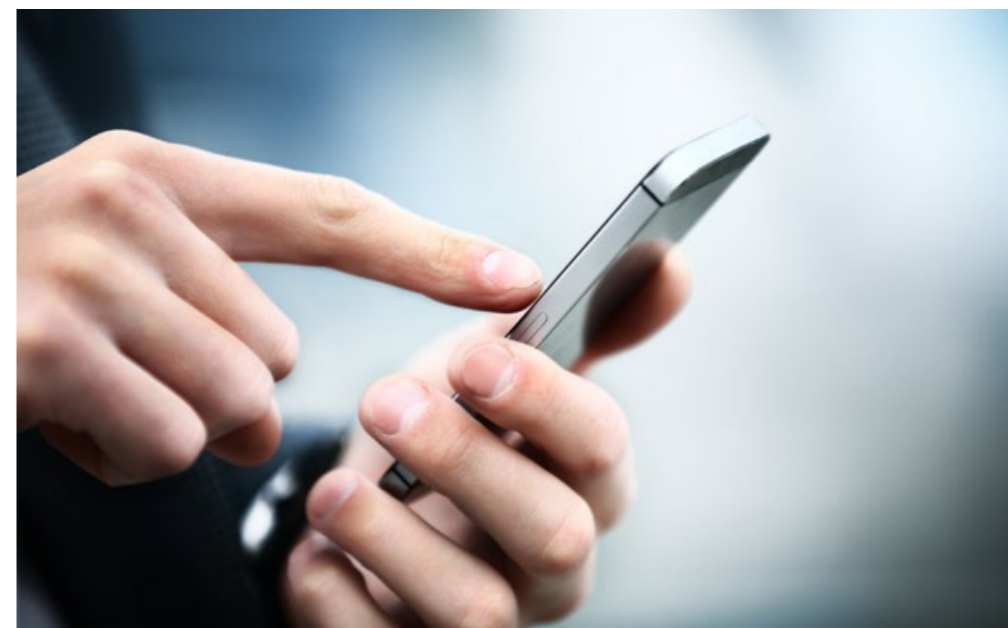

VIRUSES/BACTERIA/FUNGUS

DESTINATION STERILON UV-C

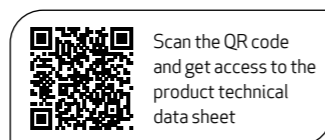

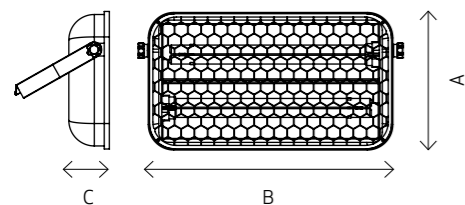

Medical facilities, medical transport, public transport, shops, service outlets, freight forwarding, gas stations, public administration, care and educational facilities, private homes – patients' rooms, shopping... And all personal items that require disinfection – telephones, documents, bank cards, money... These are just some examples of where you can use UV-C STERILON lamps.

UV-C STERILON 72W/108W

- Body colour: white
- Disinfection efficiency: 25m² (72 W) 35m² (108 W)
- Lifespan: 8000h
- Approximate disinfection time: 15 min
- Supply voltage: 220-240V
- Ingress protection IP 20
- Power supply cable 5m
- Ergonomic movable handle
- Adapted for mounting on a Future Stand tripod
- Available option: ON-OFF switch
- Can be hung on the ceiling
- Dimensions (A/B/C) [mm]: 270/480/100

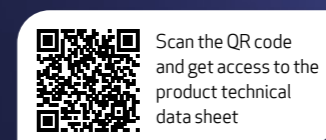

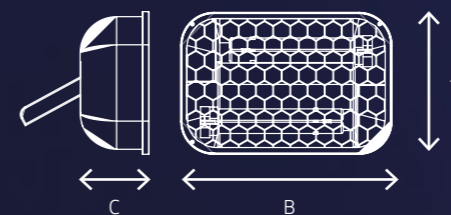

Luminaire parameters are given with tolerance permitted by the standard. The manufacturer reserves the right to change the parameters of the product not for the worse, in the course of its improvement, and to make design changes or upgrade the product. Materials presented in the booklet are not a commercial offer. The complete, current offer of Lena Lighting along with current parameters can be found at www.lenalighting.pl.

UV-C STERILON 36W

- Body colour: white
- Disinfection efficiency: about 15m²
- Lifespan: 8000h
- Approximate disinfection time: 15 min
- Supply voltage: 220-240V
- Ingress protection IP 20
- Power supply cable 5m
- Ergonomic movable handle
- Adapted for mounting on a universal tripod
- Available option: ON-OFF switch
- Can be hung on the ceiling
- Dimensions (A/B/C) [mm]: 215/320/95

Luminaire parameters are given with tolerance permitted by the standard. The manufacturer reserves the right to change the parameters of the product not for the worse, in the course of its improvement, and to make design changes or upgrade the product. Materials presented in the booklet are not a commercial offer. The complete, current offer of Lena Lighting along with current parameters can be found at www.lenalighting.pl.
